EDUCATION

Tourism & Hospitality Management

Academic background · Nicaragua

Software Development

Self-taught, intensive training since 2019

PROFESSIONAL SUMMARY

I'm a Full Stack Developer with 6+ years of experience building software across web, mobile, backend, and blockchain. I was originally trained in Tourism and Hospitality Management, but I transitioned into programming out of curiosity and have been building software professionally since late 2019. I enjoy owning the full product lifecycle, with particular interest in real-time communication systems and real financial flows. I'm currently expanding my skill set into automation.

PROFESSIONAL EXPERIENCE

Fullstack Developer

Apr 2026 - Present

Qordev

- Returned to Qordev in a senior capacity after several additional years of experience in Web3 and fintech projects.
- Build and maintain full-stack applications with React, Next.js, and Node.js, bringing end-to-end technical judgment.
- Collaborate on architecture decisions and best practices alongside the product team.

Fullstack Web3/Blockchain Developer

Jan 2026 - Mar 2026

PRNOSTCO MARKET

- I developed full-stack features for a marketplace platform with integrated blockchain components.
- I worked on the integration between frontend, backend, and smart contracts for transactional flows.

Fullstack Web3/Blockchain Developer

May 2022 - Dec 2025

Wayru

- I contributed for 3+ years to a Web3 ecosystem focused on decentralized connectivity networks, working in the organization's open-source repositories.
- I built and integrated dApps and smart contracts to handle real financial flows and reward systems.
- I worked on real-time communication features within a high-traffic product.
- I collaborated end-to-end across frontend (React/Next.js), backend (Node.js/NestJS), and the blockchain layer.

Frontend Developer

Jan 2022 - May 2022

SeniorCoders

- I developed React interfaces focused on performance and user experience.

Fullstack Developer

May 2021 - Dec 2021

HighCoders

- I contributed to full-stack development of web applications, strengthening my production-level JavaScript/TypeScript skills.

Junior Developer

Apr 2019 - Apr 2021

Qordev

- I started my professional software career after 8 months of intensive training, laying the foundation for my full-stack career.

SELECTED PROJECTS

Selection from 15+ projects I've built across web, mobile, backend, and blockchain throughout my career. Full portfolio at **davidjiron.dev**.

FinanzIA

finanzai.tech

AI-powered personal finance dashboard that unifies expenses, accounts, and cards into one view, helping users stick to their savings goals.

verTienda

vertienda.shop

Platform giving wholesalers and resellers a single source of truth for stock and pricing in real time to coordinate sales over WhatsApp.

Variedades A&D

variedadesayd.store

Online store for a fashion and footwear catalog, with orders managed directly through WhatsApp.

DemoKit

Personal project

SaaS platform for creating reusable demo templates to showcase products to prospective clients. Built with Next.js, TypeScript, PostgreSQL/Drizzle, and Cloudinary.
